## INVESTMENT STRATEGY

The RiverRockMIC offers investors a high-yield alternative fixed income investment within the high-performing real estate market. As a lender in Ontario, clients are typically self-employed individuals, borrowers with poor or limited credit history, or new immigrants to Canada. The investment objective is to identify relatively low-risk, first and second residential mortgages in Ontario, with a maximum loan-to-value ratio of no more than 80%. By combining several high-quality mortgages into a diversified pool, the RiverRockMIC is able to mitigate the risks associated with investing in a single mortgage. The target yield to our investors has increased to 7.75% for Class N, net of all fees and expenses effective January 1, 2024.
